Steam Generators Total Sense™ & SM Plus

Steamist offers Total Sense™ or SM Plus Steam Generators. Both have a stainless steel tank for years of dependable service, and save water and energy. The average 20-minute steam shower uses less than one gallon of water. Compare that to a whirlpool tub that holds a minimum of 40 gallons of pre-heated water.

FEATURES OF ALL TOTAL SENSE AND SM PLUS STEAM GENERATORS

- + All models allow the user to enjoy one or more of Steamist's Total Sense Spa Options
- + Compact design permits generator installation in a vanity, a closet or an insulated attic or basement
- + Cable included with generator
- + Lifetime Limited Warranty
- + UL Listed

TOTAL SENSE GENERATORS FEATURE INSTAMIST® AND STEADYSTEAM™

The user can activate the InstaMist feature using any Steamist digital control, and get quick-response steam. In about a minute, the steam shower will begin heating up.

Quiet, continuous SteadySteam technology maintains steam shower environment at the user's preset level, without uncomfortable temperature spikes.

In addition, multiple Total Sense generators can be ganged together for larger steam showers.
